

# MOBILE CASE FORM

## 4 BAND (3G/GSM/DCS/WIFI)

### TPJ4X MOBILE CASE JAMMER

**No External  
Antenna**

#### **FUNCTIONAL DEFINITION**

This device is designed for secret operations. It is sound, waterproof and resistant to the strokes. You can easily direct it to your destinations with the adjustable antenna (provides high gain) located in a bag. This device can obstruct any of suspicious bombs, cars or buildings and cellular phones communications. It is also portable, high capacity and it contains rechargeable Li-Po batteries. It can obstruct GSM/3G/DCS/WIFI signals completely on a predefined area since we use TDMA technology in system's power supply. There are different models and versions for VIP, police and military units.

**This device covers standard GSM bands and Wireless Data Communication**

#### **Coverage Zone**

The device's impact zone depends on various factors. Main factors are base station's power supply and power level taken from the nearest base station. If you want, you can extend the impact zone by using the adjustment switches on the device.

#### **TECHNICAL PROPERTIES**

Output Power	: 900 MHz 4 Watt : 1800 MHz 4 Watt : 2100 MHz 2 Watt : 2400 MHz 2 Watt
Carrier Scan band	: 935-960MHz, 1805-1890MHz, 2110-2170MHz and 2400-2500MHz
Carrier Frequency Stability	: (+ - ) 500 Hz
RF Exit Impedance	: 50 Ohm
RF Antenna Gain	: All Antennas 6 dB
Jamming System	: Double Sweep Technology
Power Input	: 220 Volt AC
Size	: 390 * 290 * 80 mm aluminum case
Usage Way	: Portable Bag
Jamming Angles	: 120° (horizontal) , 85° (vertical)
RF Suppress Polarization	: Circular
Working Temperature	: -10°C ~ +55°C
Power Source	: Li-Po Battery
Charge Time	: 5 Hour
Operation Time	: 4.5 Hour
